## Last Call for Volunteers! Easter Egg Hunt 2012

The Egg Hunt will be hopping in just a few days of the mailing of this month's newsletter! The event can still use additional helping hands to make it a success. It's not too late to Volunteer – contact the CRCA Management office as soon as possible if you'd like to be a part of the fun.

## Book & Media Exchange

WHEN: SATURDAY, MAY 5, 2012

WHERE: COMMUNITY CENTER

WHAT TIME: 9:00am TO 12:00 noon

FOR WHOM: CHILDREN & ADULTS (no x-rated!)

If there is anyone who has books they would like to donate for this event bring them to the Management office and the committee will pick them up there.

How does it work? It is easy; bring in six books exchange for six books. The same is true for DVDs and CDs bring a DVD or CD and exchange for another.

# CRCA Annual Elections

There are three Directors on the CRCA Board of Directors who will be elected at the Annual Meeting on October 17, 2012. The positions coming open are currently held by Connie DeLarge, John Lambert, and Larry Lemieux. The CC & R's guide the steps and timeline for the election.

The Nominating Committee will be appointed by the BOD at the May 17, 2012 Board Meeting. Any CRCA resident can serve on the Nominating Committee. The Nominating Committee develops the Slate of Candidates. If you are interested in volunteering, please let Dale know at the office. She can answer any questions you may have about what the committee does and how they develop candidate questionnaires for the two public candidate meetings at the end of June.

Nominees for election to the Board need to fill out the Application for Candidacy form and turn it in via the office to the Nominating Committee no later than June 22nd. Your association needs you. Continental Ranch is a strong and vibrant community. Apply for the Board and be a Leader in your association.

# Spring is in the Air, Plants are in the Ground

A few new landscape projects were recently completed, and a couple more are scheduled to be done soon. In February and March the CRCA Landscape Committee identified some projects which were approved by the Board. With the spring temperatures finally warming up, DLC Resources was able to begin putting things in the ground.

The first project was to spruce up a couple of the tot-lot mini playgrounds, one on Phobos Drive and one on Mountain Sky Drive. The plant material at these parks had gradually dwindled over the years. Following the Board's plant replacement program, new plants were installed at both of these small parks. As the young new plants develop this year, local residents should be quite pleased.

Many shrubs were installed to the rear of the Community Center lot, in an effort to give more privacy to the pool and surrounding area. Much of the plant material in this area was lost in years past and these shrubs should fill in the bare areas nicely.

Surrounding the Windmill Park playground, the hedge row had many gaps from missing bushes. These gaps were all filled in with matching shrubs so that within the next couple years the hedge will be uniform and complete.

Following the Association Reserves Study, the annual granite replenishment was approved and installed along Coachline, north of Twin Peaks near Mission View Drive and extending up towards the El Rio neighborhood. There is a limited amount of granite allotted each year in the Reserve Study, so next year hopefully the last small stretch of Coachline near El Rio can be completed along with other areas where the granite is wearing thin.

A new project being implemented this year is the application of insecticide on certain shrubs throughout the CRCA landscape. Last summer

many shrubs were decimated by insects, an occurrence which shocked even the U of A Cooperative Extension Master Gardener. Shrubs that were traditionally impervious to insect damage were destroyed by pests. This year CRCA hopes to get ahead of the game by applying the pesticide early to ward off potential pests.

# Out with the Old, In with the New

Have you driven Coachline lately and wondered, “what’s up with the Oak Trees”? The CRCA Landscape Committee was very concerned last month when many of the Oak Trees dropped the majority of their leaves, which especially odd since the winter temperatures were so mild this year. The University of Arizona Cooperative Extension was contacted to get courtesy advice from their certified arborist. The same arborist had visited CRCA last year when the Oak Trees were struggling, and so she was familiar with the short term history of these Oak Trees. Readers of The Windmill may recall the article from the August, 2011 edition, explaining the project which the Board approved to overhaul the irrigation system for the Oaks so that they would get the proper amount of water to remain healthy. The arborist’s diagnosis for their current condition was that after being stressed last year (prior to the irrigation improvements), now they are simply shedding all their old leaves to make way for new leaves to grow. She recommended looking extra closely at the branches for signs of new growth. Sure enough, her assessment was correct. These trees which appeared to be in poor condition when viewed from a vehicle travelling down Coachline, were actually covered in tons of tiny new leaves. Getting out on foot and peering up through the branches, one can see the abundance of new growth. Oak Trees are slow growers, so these new leaves will take some time to fill in, but by the end of spring they are expected to be back to a healthy looking state.

# The Pools!

If you ask around, you'll find that Continental Ranch residents are very proud of their highly coveted assets – the pools! Many residents are unaware that one of the two sparkling pools remains open and heated year round. Many regulars which visit the pools throughout the winter encourage others to come join them and enjoy this lovely amenity of CRCA.

As part of the CRCA Board's ongoing effort to follow the Association Reserve Study, which identifies components to replace in an effort to keep the Association's amenities in good condition, the Pool Committee recommended two pool heaters to be replaced. Upon approval by the Board, Oasis Pool Service was contracted to replace the heaters, which they completed in timely fashion. One additional heater is on the schedule for replacement this year as well, which will be reviewed by the Board at their next meeting.

The second recently completed maintenance item was the draining and refilling of the Community Center Pool. Thanks to one of the regular swimmers at the pool, it was brought to the Pool Committee's attention that the time to replace the water was at hand. Over time as water evaporates from the pools and new water is pumped in, the "dissolved solids" mineral levels build up and eventually reach a point where the water must be completely pumped out and replaced. These dissolved solids are not large enough particles for filters to remove. Perspiration from swimmers also contributes to the accumulation of these dissolved solids. Last fall the during the deck renovation, the Windmill Pool was drained and refilled. The Pool Committee opted to wait until closer to the new 2012 season to perform this maintenance servicing on the Community Center Pool. Swimmers will enjoy the fresh new water this year once the pool opens.

The Pool Committee & Board of Directors is avidly researching options for repairing the Shade Structure at the Community Center Kiddie Pool. Despite efforts to control the rusting of the post mounts, the corrosion finally compromised the mounts. A representative for the structure's manufacturer, as well as other contractors, met with CRCA Management to help determine what must be done. Stay tuned for details on when the Community Center Pool will be opened for the summer. The Board will officially decide the opening date at their April Board meeting, however, it is likely that the shade structure will need to be fully repaired prior to opening the pool. All parties involved will work towards a solution in an attempt to not delay opening the Community Center Pool for summer.

# CRCA Community Business Spotlight

Residents aren't the only members of the Continental Ranch Community Association. There are several dozen businesses belonging to the Association as well, many of which are privately owned small businesses. Please tune into this section each month to learn more about businesses within the Association. Supporting these small businesses can lead to supporting the strength of the Association as a whole. There might just be a business in the neighborhood that you didn't know was there!

# WATER MANAGEMENT

With warm temperatures settling in, it is time to turn your irrigation system back on from its winter break. Before turning your system on for the spring and summer months, you need to test it to make sure your plants are being watered effectively and water is not being wasted. This not only results in water savings, but money saved as well. Here are some helpful tips to assist you in achieving a successful start up of your irrigation system:

**1.** First, inspect your irrigation system by turning the system on and walking around your yard; you can turn your irrigation system on manually from your controller or your valve box. Make sure water is only being used to water plants and not creating wet spots where plants are not. If you see water leaving the system where no plant is present, you may be able to solve the problem by plugging the ¼" irrigation drip tube that is commonly used. The appropriate plugs are available at any hardware store. Also, check the location of drip emitters, as these can easily be moved by pets and yard maintenance activities. Position emitters to supply water to the entire root zone, which is typically about 50% larger than the top of the plant. If plants are on a slope, make sure to position the emitter on the high side of the root ball to take advantage of the water flowing downhill.

**2.** If you have turf, make sure sprinkler heads pop-up and are not stuck in the ground. You should also check to see that heads are pointed in the right direction and are spraying the intended pattern. Nozzles can become clogged by sand, rocks or other debris which you may be able to clean out with a screwdriver or pocketknife. If you cannot unclog the nozzle, replacement is necessary.

**3.** Once you have checked that the water delivery system is

Make sure all nozzles are pointing in the right direction to ensure the intended area is being sprayed

functioning correctly, move on to your irrigation controller. Sometimes, power failures or other factors can cause the controller to return to a default schedule, which may not be appropriate for the current weather conditions. If needed, reset the controller and enter a schedule appropriate for the needs of your landscape. You can use the interactive tools at [www.wateruseitwisely.com](http://www.wateruseitwisely.com) to determine how often and how long the various stations on your controller should run.

**4.** Finally, do a reality check. You want to make sure moisture from your irrigation system is actually reaching the root zone of your plants. To test the depth the water is reaching, use a long screwdriver, piece of rebar or purchase a soil probe. A screwdriver will move easily through most soil when it is wet, but will stop when it reaches dry soil. The roots of most shrubs are not more than 6" to 18" deep and even a large tree will have most of its roots within the first 24" of soil. For turf, getting moisture to a depth of 6" should be sufficient.

Take advantage of rainfall. Turn irrigation clocks off and monitor soil moisture and plant condition to determine when more water is needed

As the weather and other factors change, you will need to adjust your watering frequency, days and run time. It is important to adjust your watering schedule monthly to account for temperature and moisture changes in the environment. After it rains, turn your irrigation system off completely. Monitor soil moisture and carefully observe the condition of your plants and turf before turning the system on again.

# Seniors And Retirees Of CRCA

It's APRIL and that time of year again, taxes are due, but it is also Arizona Water Awareness Month. Taking some small steps can save you big bucks. Water Awareness Month emphasizes the importance of using water more efficiently. The website is full of tips and resources. Visit their website at: <http://waterawarenessmonth.com/index.html>. The website features a daily calendar for April with each day containing links to useful information.

We have had a loss of another one of our members of the seniors group. Richard Lebowitz who had been ill for quite some time passed away on 14 March 2012. We will miss him and his cheerful participation in our activities. Our sincerest condolences go out to his wife Barbara and his family.

Our Senior's & Retiree's Group of Continental Ranch (SCRCR), are always seeking members from our community. SCRCR is essentially an extended family and social gathering that includes activities of all descriptions. If you are a couple, a single, a winter resident, a senior or retiree, you are welcome to visit our group on Thursday mornings at the Continental Ranch Community Center and "try us out". The refreshment Committee ensures we always have

goodies to enjoy which are ready at 9 a.m., and after our short meeting, which begins at 9:30 a.m., there are card games and domino's to enjoy.

Come on by - we'd like to meet you!

## This 'N That

Arizona little known facts (various sources):

- Origin of State Name: Attributed as coming from the Pima or Papago Indian word "arizonac", meaning "place of small springs."
- More than 500 colors of dirt have been identified in Arizona.
- Did you know that Arizona Farmers produce enough cotton in a year to provide us all in America with one pair of jeans each (for every man, woman and child)?
- Arizona leads the nation in copper production.
- The age of a saguaro cactus is determined by its height.
- A person from Arizona is called an Arizonan.
- Arizona is a right-to-work state.
- The "Five C's" of Arizona are: cotton, cattle, citrus, climate, and copper.
- The official State Gun of Arizona is the Colt single-action Army revolver (as of April 2011).
- Arizona's only Civil War battle took place near Picacho Peak in April of 1862.
- The country of Italy is the same size as Arizona. The Arizona interesting fact here is that Italy has nearly 60 million people while Arizona only has about 6 million.
- Arizona could have been the Sweetheart State, since it officially became an American state on February 14, 1912. (Valentine's Day).

## Testimonial

My husband and I purchased a small home for our daughter who is attending college at U of A. Judy began working for us almost immediately after we hung up the phone. She sent us a series of homes to look at by email and we made arrangements to fly in and take a look at the Tucson market. Within four days we found a place and took ownership of it a short time later. Judy is dedicated to her clients and worked so hard during the entire process. Always helpful and patient and helped us understand the process and looked out for us. We are truly grateful to her and highly recommend her to anyone seeking to purchase a house.

# Newsletter Policies

The Continental Ranch Windmill is published monthly by the Continental Ranch Community Association (CRCA), and is prepared under the direction of the CRCA Board of Directors. The Windmill strives to maintain a positive message while informing the community of the various projects undertaken by the Board, advertise notices to the community, and promote the accomplishments within CRCA.

## Letters To The Editor

Letters must be signed and include a phone number for verification. Names will be withheld upon request. Anonymous letters or articles will not be printed. Publication of letters will be at the discretion of the CRCA Board of Directors.

## Advertising Policy

The acceptance of a business ad in the newsletter does not constitute approval or endorsement by the CRCA. "The Association reserves the right, in its sole and absolute discretion, to refuse to accept any advertising submittal made by a prospective advertiser of the Association's newsletter or other publications." Ad publication is subject to space availability on a first-come, first-serve policy and could be denied or postponed due to lack of space in a specific issue. All advertising is subject to current Advertising Rates, as adopted by the Board of Directors. All copy for articles and camera-ready advertising is due at the Association office by the 15th of the month. Distribution will be approximately the first week of the following month. Ads may be submitted on Compact Disc (CD) to the management office, or by e-mail to [jocelyn@hoamanagementsolutions.com](mailto:jocelyn@hoamanagementsolutions.com). The preferred file format for ad submissions is PDF, however JPEG is also accepted. For specific ad size dimensions please e-mail the address above for additional information.

## Advertising Rates

Business Card	\$45
Quarter Page	\$75
Half Page	\$130
Full Page	\$227

\* 3 and 6 month discounts available

Political Ads must have "Paid advertisement. Not endorsed by the CRCA" in at least 8 point type at the bottom of the ad.

# Management's Message

*Spring is nature's way of saying, "Let's party!"*

*~Robin Williams*

Dear Residents,

As I write this we are experiencing (hopefully) the last cold days of winter. It is hard to believe that spring is already here. Spring means the CRCA Easter Egg Hunt is upon us on April 7th. It promises to be bigger and better than ever before. It is also a way to help the Marana Food Bank with your donations. Please check out the ad elsewhere in the Windmill. Come, have fun with the families and enjoy the vendors. Please be a good neighbor and not block our commercial owners' parking spots with your cars.

It promises to be an extra busy Board meeting this month. Come on down to the Community Center on April 19th at 6:30 p.m. to see your Board of Directors at work. People are joining the committees but there is always room for one more. Activities Committee has a Book Exchange coming up in May. Stay tuned for further information. The pools are being prepared for the summer. Windmill Park pool is open year round. And hasn't the grass looked beautiful? It is such a pleasure to enjoy the beautiful plants along our roadways.

My name has changed as I married at the end of March. So this is the first time I am signing off with my new name. My grateful thanks go out to the owners who have wished us well. Enjoy your April!
