Manager Report Continued... The transition from CINC back to VMS Online has been completed, and account statements were processed and distributed to all homeowners, with email copies sent to residents who have email addresses on file. Management continues to follow all applicable Arizona Statutes, CRCA CC&Rs, and governing policies. Assistance with ARC applications remains ongoing through paper forms until the online submission process is activated. Property transfer inspections continue to be completed as requests are received. During April, 18 homes sold or closed in CRCA, 2 in Sunflower, and none in Sierra Pointe.

Regarding landscape and community projects, the Dog Park Proposal Ad Hoc Committee reported no new updates at this time. Turf at Windmill Park continues transitioning to summer Bermuda grass, with aeration scheduled once the Bermuda is fully established. Four trees identified for replacement are scheduled for installation on May 18. The May–June community newsletter was distributed, and both the perimeter wall painting project and curb painting projects were completed. Management also reported that an extra handicap logo was mistakenly painted at the Community Center due to old residual markings; Top Tier corrected the issue by painting over the logo with grey paint. The ramada concrete project remains on schedule for completion by the end of May.

Pool-related maintenance and enforcement activities continued throughout the month. The spa jets required additional repairs, and the Windmill Park pool was closed for two days due to human contamination. The splash pad feature temporarily stopped functioning but was repaired by Oasis and is now fully operational. Management also addressed several incidents involving pool monitors and residents, resulting in certain homeowners being asked to leave the facility and having their key cards disabled for 30 days due to behavioral violations.
